---

PROFESSIONAL EXPERIENCE

Uzinfocom   **2024 november - 2025 january**
Frontend developer intern

While I was working in this organization, we advertised some of our work to government agencies and I actively participated in their development. While working in the team, I gained basic knowledge in Javascript and Angular.js and managed Javascript effectively.

ArdentSoft IT company   **2024 december - present**
Frontend developer in junior position

When I worked in this organization, we advertised some of our work to government services and actively participated in their work, while working in a team, I effectively used React.Js, Typescript and Next.js and sold our services to many entrepreneurs and everyone was happy with it. During my work, I effectively used React.js, Next.js and Tailwind css and gained soft skills in solving problems

Kwork,Fiverr, habr and other freelancing platform   **2024 December - present**
Web developer

I even served freelance clients, helped businessmen on orders, and mainly worked on crm, admin panel, user interface site, online magazine, and other systems.
